we have been doing it all year and our aim is to get to **100 acts of kindness** (we are nearly half way there already).

**REPLAS Centre**
*By Charly & Aston*
Last Friday, the adventurous grade 5/6s journeyed to the **REPLAS Centre** (Recycling plastic) where we were educated all about the benefits of recycling soft plastics like plastic bags and fishing lines and how to dispose properly. If we don’t recycle, the effects on our beautiful environment can be catastrophic.

When we arrived at the **REPLAS Centre**, we were split into 2 groups and greeted with 2 friendly tour guides, who, lead us around the campus. One, lead us through an educational tunnel, full of amazing facts fun.

The tunnel explained what happened to all the rubbish we disposed of, and where it ended up. **Did you now it takes plastic 450 years to decompose?**

The other, took us on a tour around the Centre, she showed us some amazing and resourceful machines used to transform our everyday plastic into useful outdoor items, such as benches, bollards and fitness equipment. After our tour, our knowledge was put to the test in a letter find, making a secret word. The secret word was..... **Rethink!**
Kitchen Class

Today the 5/6’s group B cooked a great meal! My favourite food was the lemon verbena biscuits. Delicious!

Now I’ll tell you some other fantastic meals we had today. The first one we made was the herb salad with goats cheese. And that tasted really good. I even had seconds. The second thing we made was basic egg pasta dough - this is what I made. The third thing we made was the pumpkin filling for pasta, so the basic egg dough and the pumpkin filling were the same meal. And the last thing we made which was what I liked the best - the Lemon verbena biscuits (a.k.a. BEST MEAL EVER!) That’s all I have to say. Thank you. Harriet 5/6
