Welcome back everyone! I hope you all had a wonderful school holiday and spent some time together as a family. I am looking forward to another amazing term and our continuing evolution as a learning community.

The concert next Tuesday 11th October will be a great celebration of the excellent performing arts program Mrs Hodges implements. The children looked great at their dress rehearsal this week and we are all looking forward to seeing them perform at the Frankston Arts Centre. There are still a few tickets left so if you are yet to book your seat please make sure you do so before it is a sell out.

On Wednesday it was great to see a number of our students competing in the Division Athletics Sports. All the children tried their best and should be proud of their achievements. I would like to thank Mr Vansittart for his efforts in preparing the students for the athletic carnivals this year. Well done to everyone involved!
I am looking forward to a variety of great learning experiences for our whole community this term. One of these opportunities comes in conjunction with our neighbouring schools and the City of Kingston. As a cluster we have organised a **free parent evening on 24 November 2016** at Patterson River SC with **Andrew Russell** who is the High Performance Manager at Hawthorn Football Club. We are very lucky to have the chance to hear from such a successful leader in his field. Andrew will be able to share important messages about **how we can support our children to be their best**. He will discuss many very relevant issues including the importance that rest and recovery plays in allowing our children to reach their full potential. This is an exciting event and I am sure everyone who is able to attend will find it a worthwhile experience.

Mr Mulcahy and the Digital Technologies Team are extremely excited about hosting the first **Northern Peninsula Digitech Conference** on the 10th November. This will be a great opportunity for our students, and students from other schools, to showcase the amazing digital technology skills they have developed at school. This innovative event promises to show case robotics, app development, 3D printing and Radio Carrum. **Our senior students will gain great exposure to a number of cutting edge technology experiences. This is part of our journey in becoming an eSmart school and a leader in digital technologies education.**

**Looking ahead to 2017**, later in the term we will have a number of **transition sessions**, which will help the students prepare for the year ahead. Our transition program will be slightly different from previous years and will give our teachers more opportunities to discuss how we place students appropriately. This process is very thorough and we take into account the needs of all the students when making grade placements and teacher allocations. If you would like us to consider any relevant information before making these decisions could you please put it in writing to me prior to the **31st October**. This is to ensure we have adequate time to plan effectively for 2017, any requests after this date will not be considered.
Just a quick reminder that the **Community Fundraising Committee** will be **meeting** on **Thursday 13th October at 8:30am**. We will be discussing the **Big Green Festival**, as well as many other exciting events. We are very appreciative of the support we receive from our families and welcome any new faces on the committee.

I wish everyone a fantastic end to the week and look forward to seeing you at the concert next Tuesday evening.

*Best regards,*
*Clem Langford*
*Principal,*

**Big Big Thanks** to Roshen & Maya’s family for donating some amazing new books to our Library.
Kitchen Class

This week 3/4D cook some scrumptious food in the kitchen. My group cooked bean and vegetable soup. The other groups cooked different meals. The Carrot Kings cooked Indian flat bread. The Melting Chocolates made apple and cabbage slaw, while the Melting Marshmallows cooked turnip, potato and bacon fry up.

I chopped a lot of stuff. I chopped some parsley and some other yummy food.

Finally we finished our soup, then we served it all up. It was scrumptious food. Yum Yum!!

eSmart at Carrum PS!

Last term we looked at some apps or websites your child may be using and discussed potential risks and how to stay safe online. This term our eSmart focus is upon child-friendly websites and apps that are both fun and educational too!

The following list is made up of websites appropriate for students in Grades Prep-2:

**ABC Kids** [www.abc.net.au/abcforkids/](http://www.abc.net.au/abcforkids/)
This fun website features many of the television shows popular with young children. Your kids will have a great time exploring the videos, songs, games and colouring sheets of some of their favourite programs.

**Build with Chrome** [www.buildwithchrome.com/](http://www.buildwithchrome.com/)
For all the Lego lovers out there, this website enables them to create masterpieces without actually having any real Lego pieces! Prior to building you will be asked to sign in with your Google account (in order to publish work). For parents not wanting to do this, they are simply able to select the ‘let's build first’ option.

**doodle.ly** [doodle.ly/](http://doodle.ly/)
This is an online sketch pad where kids are able to draw a picture using what looks like real crayons, textas, pencils and pens. Similar to the Lego site, users are able to publish their picture on Facebook or Twitter, however this is not essential and there is still the option to draw without signing up.

**Funbrain** [www.funbrain.com/](http://www.funbrain.com/)
An engaging website where kids can play a variety of fun Maths games. Or perhaps reading books and comics is more what interests them. This website has a variety of online books, suitable for a variety of ages. Younger children will find age appropriate stories and games on the junior version of Funbrain, found via the following link: [www.funbrainjr.com/](http://www.funbrainjr.com/)
BIG GREEN FESTIVAL 2016

Carrum Primary School
4pm - 7.30pm

Foot Stomping Music, Farm Tours, Garden Sessions, Student Stalls, Yoga Sessions, BBQ running hot with Gourmet Sausages, our fabulously popular Big Green Festival Cake Stall, unique Jams & Seeds from our Stephanie Alexander Kitchen & Garden, plus local Environmental Activists spreading the word, more to be announced...
Carrum Primary School uses the **Tiqbiz App** to keep our community up-to-date with current events. Tiqbiz is a Free App available to download from the iTunes App Store, Google Play and www.tiqbiz.com.

Instructions on how to install the Tiqbiz App are listed below.

---

**Find and tick our school**

**Log-in**
Open tiqbiz and register/log-in.

**Find our school**
Click the 'Find' icon and type our school name into the search bar. You will now see all of our school boxes.

**Tick on**
Click on the grey tick beside our school box and any other boxes that apply to you. When the tick turns green, you're connected.

**Inbox**
Click on the Inbox icon. This is where you will receive our instant messages, newsletters, notices and calendar events.

**Technical Support 9am-5pm Mon-Fri**

- **Victoria**: (03) 9600 1489
- **New South Wales**: (02) 8091 6826
- **Queensland**: (07) 5641 4585
- **Email**: team@tiqbiz.com

---

We have a school app

We are now using an app to send instant messages, newsletters and notices.

The tiqbiz app will help our school keep parents fully informed and up-to-date with newsletters, notices, news and events. It’s easy to use and also has the benefit of helping reduce our paper consumption by printing less.

The first step is to download tiqbiz to your phone, tablet, computer... or all of them.

Search for: tiqbiz

- **Available on the App Store**: iPhone and iPad
  - Important: Click "allow" notifications when asked. This is to allow your school to send you important alert notices.

- **Android app on Google play**: Android smartphone and tablet.

Once installed, follow the steps on the next page to tick on our school.
