

# Carrum Newsletter

**Hello Carrum Primary school, my name is Kate, and I am in grade 3/4M.** For me, being back at school is a great opportunity to see friends that I don't live close to, and do a bit better in school. Sometimes it's hard to focus alone without a teacher, and for some people home learning is a bit of a challenge to go through.

**At the end of school, I'm looking forward to going into grade 5.** If next year we get to do a concert, that would be awesome. This year's been odd, I hope we have more luck in 2022! *Cheers, Kate*

**During the first couple days back at school it was hard to get used to it but then after that it was pretty normal.** It was great to come see my friends and play and see all my Specialists and most of all my teacher.

It's healthier to be at school than at home because you learn easier and it's better for one-on-one teaching. Watching a

screen all day is not the ideal way to live! It's just more fun to be outside and playing in the school yard being active than inside looking at a screen all day.

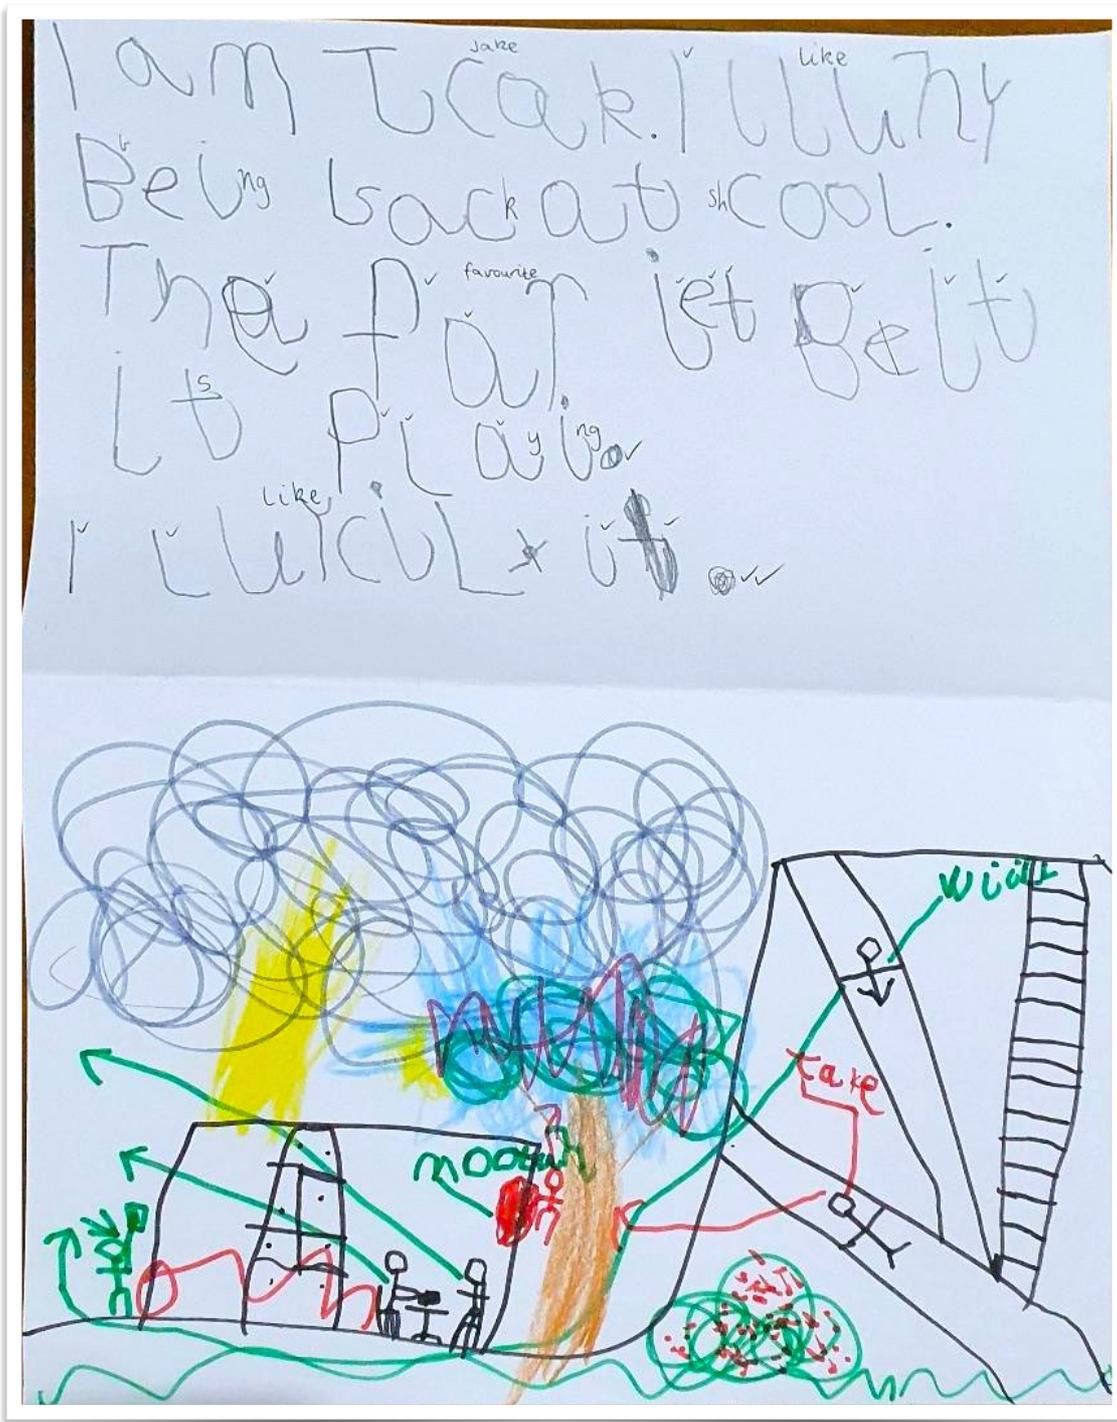

It's been kind of hard with all the masks and everything but you get used to it after a while.

Hello everyone Being back at school is very busy, and I like **Being Busy** because in home school I finished early, and I had nothing to do. And I love how I can see my teacher in person not on a screen. Now I can see friends again finally. and before I couldn't see any of my friends.

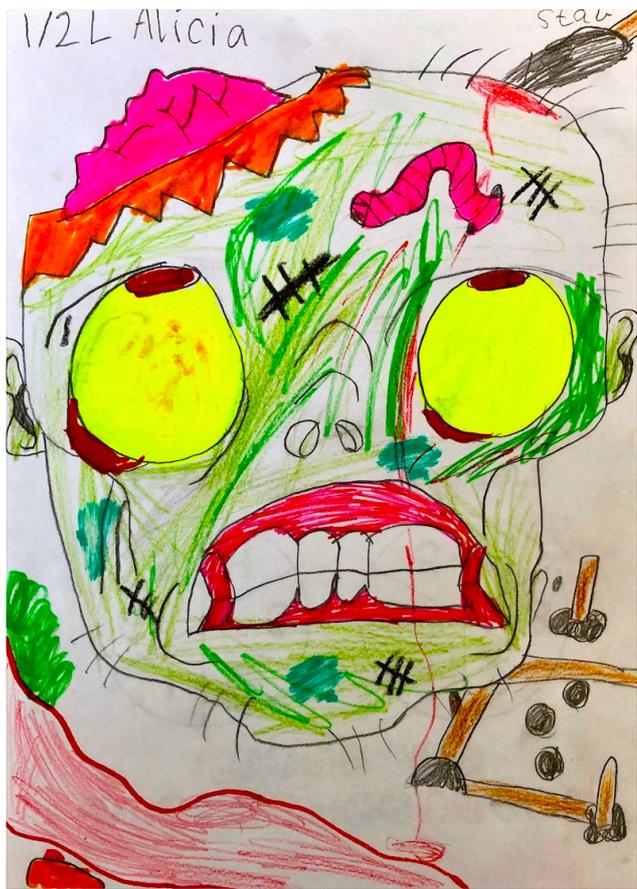

From Wyatt

**Being back at school is really fun** because we like playing games like tiggly and gymnastics with our friends outside. It is the best seeing the teachers because they are all so nice.

**Being at school is way better than being at home** because it was harder looking at a screen all the time. At school we get to do Art and German in the proper classroom and PE outside with the whole class.
